### **Ref: 2010 Regional Qualifying Events**

Please note the dates have been set for the Western and Eastern Qualifying events. The Western tourney will be on Lake James on Friday September 17<sup>th</sup> and Saturday the 18<sup>th</sup> out of Black Bear Landing. The Eastern tourney will be held on the Gaston Lake out of Morning Star Marina (old Eaton's Ferry) on Friday October 8<sup>th</sup>, and Saturday October 9<sup>th</sup>, 2010. We will blast off event at safe light!!

The entry fee per team is \$400. Please add \$10 for each person wishing to participate in the big fish pot, and if your club is not providing a worker for the tourney, please add an additional \$20 to your entry fee. The 2011 state team will be selected at these tourneys with 6 coming from the western and 6 coming from the eastern. It was voted on by BASS/ESPN to expand the 12 member team to 14 members last year. We will carry 14 members unless a change is made at the National Meeting in Louisiana in Late October this year.

**Entries fees for the Western Regional are due by August 1<sup>st</sup>, 2010 and Eastern fees are due by September 1<sup>st</sup>.**

Please be sure to **put each contestant's name, phone number and email address** if applicable. There will not be a meeting prior to the tourney and pairings will be done as in the past. All boaters must have proof of Insurance in the amount of \$300,000 and a certificate should be mailed in with your entry form.

Payout will be based on the total weight of your team. Only teams are eligible to receive compensation from the tourney except the individual winner will win \$500. A team can consist of less than 6 members. Their entry is still \$400. **Entries for the western regional must be received by me before August 1st and Eastern entry fees are due before September 1st. We will pay 1 out of every 4 entries.**

**New this year:** As long as a club enters at least one team, individual members can participate in the tourney for an additional \$80 per person. There must be an even number of participants, 2, 4, 6, etc. to assure we have the correct number of boaters and non-boaters. We encourage all members to fish that wish to as there is not limit as to how many members a club can send. I look forward to a successful turnout this year.
